PROFESSIONAL SUMMARY

Reliable and safety-focused Mining Engineering student currently undertaking a Graduate Diploma of Professional Engineering (Mining Engineering) at Curtin University, progressing to a Master of Professional Engineering (Mining Engineering) at Curtin's Kalgoorlie campus. A White Card holder with a hands-on work ethic built in fast-paced, physically demanding kitchen environments, backed by a strong record of following procedures, keeping accurate records and working as part of a team.

Eager to gain hands-on operational experience at the start of a long-term career in the Western Australian mining industry. Open to FIFO rosters and regional work, ready to learn on the job, take direction and put safety first on every shift.

TECHNICAL SKILLS

- **Safety Awareness**
- **Procedure Compliance**
- **Sample Handling**
- **Mining Fundamentals**
- **Hazard Identification**
- **Workplace Safety**
- **Data & Reporting**
- **Mining Technology**
- **Risk Assessment**
- **Field Readiness**
- **Record Keeping**
- **Computer Literacy**

SOFT SKILLS

- **Teamwork**
- **Reliability**
- **Following Instructions**
- **Leadership**
- **Communication**
- **Adaptability**
- **Problem-Solving**
- **Quality Assurance**
- **Attention to Detail**
- **Time Management**
- **Working Under Pressure**
- **Organisation**

WORK HISTORY

Chef **[04/2022 – 07/2024]**
Ariel's Café, Wollongong, NSW

- Worked in a hot, fast-paced and physically demanding environment, staying calm and efficient through high-pressure peak periods.
- Led and mentored a diverse kitchen team, fostering a collaborative, flat-structure environment that kept team morale high.
- Followed food safety, hygiene and equipment safety procedures every shift.
- Prioritised tasks and managed time to meet tight deadlines during busy services.
- Managed stock, resources and supplier relationships, reducing waste and controlling costs.
- Communicated clearly between kitchen and front-of-house teams to keep service running smoothly.

Software Engineering Assistant **[12/2025 – 07/2026]**
Realta Logic, Sydney, NSW

- Followed structured processes and checklists, tracking sprint milestones and managing backlogs in Jira to keep work on schedule.
- Maintained accurate project documentation, including technical guides, setup instructions and deployment checklists.
- Executed manual test suites, logged bugs and verified fixes, applying strong attention to detail and quality assurance.
- Worked in an Agile/Scrum team, prioritising tasks and planning sprints with colleagues.
- Removed blockers and improved communication across teams to keep projects moving.

Peer Tutor **[07/2024 – 11/2025]**
UOW College, Wollongong, NSW

- Provided peer technical support to students learning Python, MongoDB and MySQL.
- Diagnosed and debugged problems in student work by guiding peers' step by step to the solution.
- Explained complex concepts in simple language so students could understand and apply them quickly.
- Built strong communication and patience through regular one-on-one and small-group support.

EDUCATION

Master of Professional Engineering **[Commencing 07/2027 – Expected Grad: 2029]**
Curtin University, Kalgoorlie, WA
Mining Engineering

Graduate Diploma of Professional Engineering **[07/2026 – Present]**
Curtin University, Bentley, WA
Mining Engineering

Bachelor of Computer Science **[07/2023 – 07/2026]**
University of Wollongong, Wollongong, NSW
Double Major: Software Engineering & Artificial Intelligence & Big Data

CERTIFICATES & LICENCES

White Card - General Construction Induction
Current WA C-Class Manual Driver's Licence

KNOWLEDGE & PROJECTS

Tactical Object Recognition Project **[07/2024 – 07/2025]**
Collaborative Research with Dr Thanh Le Hoang, *University of Wollongong, 2025*

- **Project Goal:** Worked with Dr Thanh Le Hoang during undergraduate studies to develop deep learning models for object recognition in autonomous drones.
- **Technical Role:** Assisted in training, fine-tuning and evaluating CNN and ANN models on image datasets.
- **Data Optimisation:** Helped apply data augmentation and noise-filtering to keep results reliable in varied lighting and weather.
- **Key Achievements:** Contributed to a 94% classification precision rate on validation data and co-built data pipelines that cut preprocessing time by 20%.

Skin Check Champions – Capstone Client Project **[2026]**
Backend Developer & AI Quiz Assessment, *University of Wollongong, 2026*

- **Backend Development:** Built core backend services, APIs and data flow for user interactions and quiz features.
- **AI Quiz Module:** Developed an AI-powered quiz system that gives personalised learning feedback.
- **Client Collaboration:** Worked directly with an external client, presenting updates and acting on their feedback.
- **Team Contribution:** Collaborated in a six-member agile team on requirements, planning and delivery against deadlines.
